As we journeyed through our sixth year of existence, I could feel the mission of St. Michael’s Academy settling in the hearts of all of our advocates, both old and new. While embracing our theme, Together We Grow, we focused on reaching out to our grandparents and spreading the message about SMA. We invited them to celebrate a unique experience with their grandchild, depending upon the grade level. They have been invited to such activities as a Polar Express experience, Drumming Recital, “Are You Smarter than a 5th Grader” math event, and a breakfast with our eighth grade students. Every time we host a grandparent function, they gain a deeper understanding of the mission of St. Michael’s Academy.

I wish to express my gratitude to all of you for your support, both spiritual and financial. Your generosity allows us to continue the unique program offered at St. Michael’s Academy and fulfill our mission as educators in Christ.

Peace,

Ann E. Dougal
Principal

Thanks To Your Generosity

We are deeply thankful to God for the individuals and organizations listed on the following pages who have supported our mission. Your gifts of time, talent and treasure have truly made a difference in the lives of our students!

“My two great-grandsons attend St. Michael’s. I am very pleased with the education they are receiving. St. Michael’s is vital for the Catholic faith.”

Ms. Eileen Morrow, Great-Grandparent

“Our beloved granddaughter, Chloe, has thrived in the warm, supportive environment that you have managed to create at St. Michael’s. If our small contribution in any way supports this mission, we are thrilled.”

Mr. & Mrs. Jerome Brennan, Grandparent
Through a partnership with the Community Music School of Springfield and their talented teachers, St. Michael’s Academy offers enhanced music classes in the areas of violin, drumming, and chorus. Violin lessons are offered to our 2nd grade students, 3rd grade students participate in drumming lessons, and chorus instruction is provided at the 4th grade level. All three groups present a culminating performance at the end of their weekly lessons.

These programs provide an introduction to self-expression through the arts to a diverse population of students. By allowing them a unique opportunity that they might not otherwise have to learn a musical instrument, they engage in positive social interaction, and build self-confidence.

We are grateful to the D’Amour family and the Massachusetts Cultural Council for their commitment to enriching the lives of our students through the arts. We extend our thanks to the TD Charitable Foundation for its support of our violin program.

Integrating Technology: The Next Phase

All 22 of our classrooms have now been fitted with new SMART Boards. What better way to help ignite our students’ passion for learning! The opportunities for interactive education exploded over a short period of time. This innovative device allowed many teachers to step out of their comfort zone and explore 21st century tools which are now accessible in every classroom. By engaging students using a different platform, teachers are encouraging higher levels of critical thinking and creative problem solving. This past year, faculty and staff have been honing their skills and knowledge to provide a much more engaging learning experience in the classroom.

How technology has enhanced the academic program at St. Michael’s Academy:
• Interactive learning encounters in all subject areas, including religion
• Virtual Field trips available to all classes
• Access to educational online sites such as Brain Pop and Brain Pop Junior
• Integration of videos through sites such as Discovery Education, Smart Notes, You Tube and webinars
• Ability to project the story activities and new skills learned to the entire class, especially in K-1st grade
• Skyping sessions scheduled with prominent authors
• Guiding 1st and 2nd grade students as they format Power Point presentations
• Quickly accessing maps, graphs, mathematical concepts or images
• Synthesizing cross-curricular lessons with grade level teachers through the computer lab
• Increased access of online textbooks

“Attending SMA not only advanced my education, but has introduced me to new opportunities. The friends that I have met through SMA have become family. Growing up in a Catholic community has taught me lessons that I won’t forget for the rest of my life.”

Quan, 8th

“SMA is a great school and I love how they teach you to live the 3 L’s, learning, loving, and laughing.”

Grace, 5th
Academics At Its Best

St. Michael’s Academy continues to empower students with knowledge and experience through an innovative academic program that utilizes a variety of learning approaches. These approaches are designed to encourage creativity, offer collaborative experiences, incorporate 21st century technology and utilize project-based learning. Students are challenged to explore real world problems and are given the tools to accomplish the task. Teachers communicate clear expectations and challenge students through a rigorous curriculum that inspires students to seek a deeper knowledge. The end result is academics at its best!

A shining example of St. Michael Academy’s cross-curricular academic success can be found in the school’s participation in the SchoolsNEXT international competition, formerly known as School of the Future. Under the leadership of Ms. Sylvia Kaimi, teams are challenged with designing a 21st century learning environment that will promote learning, conserve resources, be environmentally friendly and benefit the surrounding community. The project requires a multi-disciplinary approach to planning, while maintaining thorough documentation of all phases. The students then must construct a 3D model, using only recycled materials, and prepare a polished delivery to a panel of judges.

This year, and for the second consecutive year, St. Michael’s Academy progressed to the finals recently held in San Diego, California. The SMA team consisting of Elijah Ayers, Richard Bordonaro, Joseph McCoy and Gerry Martin made St. Michael’s Academy proud as they were awarded first place on the national level and second place on the international level. The panel of judges were so impressed with their community center presentation, The Vision, they recommended it be presented to the Springfield City Council! Once again, SMA students are leading the way!

Another great example of SMA taking academics to the next level and using project based learning, lies with the 4th grade class. Every year students delve into the world of the annual “Iditarod” dog sled race spanning across almost 1,000 miles of the roughest terrain in Alaska. The students select and research an individual musher, study the route and its challenges, and keep a daily journal of the musher’s progress. The hallways of St. Michael’s are alive as the race course is displayed on the walls and the students move their sleds every day to represent progress. Technology allows them to follow blogs written by the mushers, witness live crossings at the finish line and celebrate successes and struggles along the way. To incorporate the cross curriculum experience, students read the novel Stone Fox, which centers on a young boy in Wyoming who enters a hometown dog sled race.

A unique and distinctive project specifically designed for our 6th, 7th, and 8th grade students is The Living History Museum. Students choose a famous person, invention or era in time and become historians. They sharpen research skills utilizing primary and secondary sources and explore their topic based on parameters set by teachers. They prepare an oral presentation, a trifold poster presentation and gather display items or assume the identity of their chosen person with period costume. It’s like taking a walk through history!

Providing opportunities for students to learn through a variety of mediums allows them to explore and excel at their own pace. By integrating this level of active and engaged learning, we are creating a solid academic foundation for our students and equipping them with the tools necessary for success in high school and beyond!
Faith Formation Every Day, All Day!

The foundation of St. Michael’s Academy is built upon its Catholic Identity. The Catholic spirit is alive and thriving, visible and unmistakable at SMA. The symbols above our doorways and the statues in our halls indicate a catholic school, but it is the conduct and behavior of our students, faculty, and staff that represent our Catholicity!

Quotes From Our School Community

“I believe that a Catholic education at the young level provides the foundation needed to help our young people develop skills and attitudes that will enable them to become caring and responsible citizens of the world.”

Carol Brown, Faculty

“How lucky our family was to receive an outstanding education strengthened with teachings on religion and moral values. We support the Fund for SMA because we believe in Catholic Education and we believe in our youth!”

Mary Jean and Thomas Daly, SMA Parents of Alumni

“Thanks to SMA I have a stronger knowledge and love of God. SMA has given me the Catholic education that I needed. SMA has shown me a way to love learning and given me a place for safe learning.”

Conor, 8th

“We feel that St. Michael’s Academy is a special place that creates an exciting and safe learning environment. Our daughter looks forward to school every day. It also supports our Catholic upbringing.”

Laura Guerin, Parent

“St. Michael’s Academy has shown me how I can be a good person, a good student, and a good friend.”

MISSION STATEMENT

It is the mission of St. Michael’s Academy to teach and share the traditions of the Roman Catholic faith and promote academic excellence within a safe and nurturing environment that welcomes and respects individuals of all backgrounds, cultures and faiths. In partnership with parents, we guide students to develop to their fullest potential, as responsible citizens of the world, instilled with a strong set of moral values, a sense of service, and a love of learning.

8th grade students gathered in prayer one last time as a class before graduation Mass
